

Summary of key data points

		% of global catch (tonnage)	% of global effort (kW day)	% of WTO-relevant subsidies
Development status	Developed members	28%	18%	38%
	Developing members	62%	75%	60%
	LDCs	7%	5%	1.7%
Maritime areas	Domestic EEZ	82%	76%	71%
	<i>Developed</i>	21%	14%	<i>Not available</i>
	<i>Developing + LDCs</i>	59%	61%	<i>Not available</i>
	Foreign EEZ	15%	19%	24%
	High seas	2.5%	5%	5%
Sector	Industrial	72%	57%	89%
	Artisanal	27%	43%	11%
	<i>Developed</i>	3.5%	8%	6%
	<i>Developing + LDCs</i>	22%	34%	5%

This table was compiled using data extracted from presentations made by Deng Palomares (catch), Yannick Rousseau (effort), and Anna Schuhbauer (subsidies) at this virtual workshop and Skerritt et al. unpublished data (allocation of subsidies to maritime areas).
