

A group of people is gathered on a lakeshore, surrounded by tall evergreen trees. In the background, a blue lake stretches towards a forested shoreline. A picnic table with various items on it is visible on the right. The scene is bright and sunny.

IISD-ELA Fall Open House 2016

Saturday, September 17, 2016
10:00 am to 3:00 pm

There will be a bus travelling to IISD Experimental Lakes Area (IISD-ELA) from the Kenora Recreation Centre, departing at 8:00 am SHARP. The bus will return to the Recreation Centre for 5:30 pm.

Join us at our annual open house to learn what IISD-ELA science is all about! You will have the opportunity to tour our entire research facility, including the chemistry and fish labs, meteorological site and beautiful waterfront. Visit the world-famous Lake 239 and get your hands dirty catching fish in a seine net. IISD-ELA scientists will be on-site to answer questions and discuss anything and everything related to environmental science and freshwater conservation. See you there!

Light snacks and refreshments will be available on-site, but we ask that participants bring their own lunch. Please help us to reduce waste by minimizing the amount associated with your lunch.

Contact Marcus Threndyle, IISD-ELA Outreach Assistant at mthrendyle@iisd-ela.org or 807-226-5162 ext. 225 to register today
